### DETAILED ACTION

1. This Office Action is in response to amendments and remarks filed June 13, 2002. Claims 1-16 are currently pending.

#### ***Claim Rejections - 35 USC § 102***

2. The following is a quotation of the appropriate paragraphs of 35 U.S.C. 102 that form the basis for the rejections under this section made in this Office action:

A person shall be entitled to a patent unless –

(e) the invention was described in a patent granted on an application for patent by another filed in the United States before the invention thereof by the applicant for patent, or on an international application by another who has fulfilled the requirements of paragraphs (1), (2), and (4) of section 371(c) of this title before the invention thereof by the applicant for patent.

3. Claim 1 is rejected under 35 U.S.C. 102(e) as being anticipated by Inoue et al. (U.S. Patent 5,926,238).

Regarding claim 1, Inoue et al. disclose (see Figure 8B and table below) a color filter array comprising a tiling pattern of pass filters, wherein the tiling pattern has a unit array, the unit array having green, red, blue and infrared pass filters in relative numerical proportions 4:1:1:2, respectively.

***Claim Rejections - 35 USC § 103***

4. The following is a quotation of 35 U.S.C. 103(a) which forms the basis for all obviousness rejections set forth in this Office action:

(a) A patent may not be obtained though the invention is not identically disclosed or described as set forth in section 102 of this title, if the differences between the subject matter sought to be patented and the prior art are such that the subject matter as a whole would have been obvious at the time the invention was made to a person having ordinary skill in the art to which said subject matter pertains. Patentability shall not be negated by the manner in which the invention was made.

5. Claim 9 is rejected under 35 U.S.C. 103(a) as being unpatentable over Inoue et al.

Regarding claim 9, Inoue et al. disclose (see Figure 8B) a color filter array comprising a tiling pattern of pass filters, wherein the tiling pattern has a unit array, the unit array having green, red, blue and infrared pass filters in relative proportions 4:1:1:2, respectively. Inoue et al. do not disclose the colors of yellow, magenta and cyan. However, RGB and CYMK color palettes are notoriously well known and associated. It would have been obvious to a person of ordinary skill in the art at the time the invention was made to use the colors of yellow, magenta and cyan in the apparatus of Inoue et al. since the colors are equivalent and allows for the expansion of the color palette of the device for increased flexibility in operation of the device.

***Allowable Subject Matter***

6. Claims 2-8 and 10-16 are allowed over the prior art of record.

***Response to Arguments***

7. Applicant's arguments filed June 13, 2002 have been fully considered but they are not persuasive.

Art Unit: 2878

Regarding claims 1 and 9, nothing in the claims limit the invention to having no other filters "in-between" as asserted. Applicant defines the tiling pattern as repeating the unit array. Simply repeating a unit array does not preclude other filters "in-between" the unit array. Thus, Inoue et al. disclose repeating or tiling the unit array as claimed. Therefore, as set forth above, this rejection is proper.

### ***Conclusion***

8. Applicant's amendment necessitated the new ground(s) of rejection presented in this Office action. Accordingly, **THIS ACTION IS MADE FINAL**. See MPEP § 706.07(a). Applicant is reminded of the extension of time policy as set forth in 37 CFR 1.136(a).

A shortened statutory period for reply to this final action is set to expire **THREE MONTHS** from the mailing date of this action. In the event a first reply is filed within **TWO MONTHS** of the mailing date of this final action and the advisory action is not mailed until after the end of the **THREE-MONTH** shortened statutory period, then the shortened statutory period will expire on the date the advisory action is mailed, and any extension fee pursuant to 37 CFR 1.136(a) will be calculated from the mailing date of the advisory action. In no event, however, will the statutory period for reply expire later than **SIX MONTHS** from the date of this final action.
